

Erweiterung des digitalen Unternehmens durch Low-Code

Wie im vorherigen Webinar gesehen:

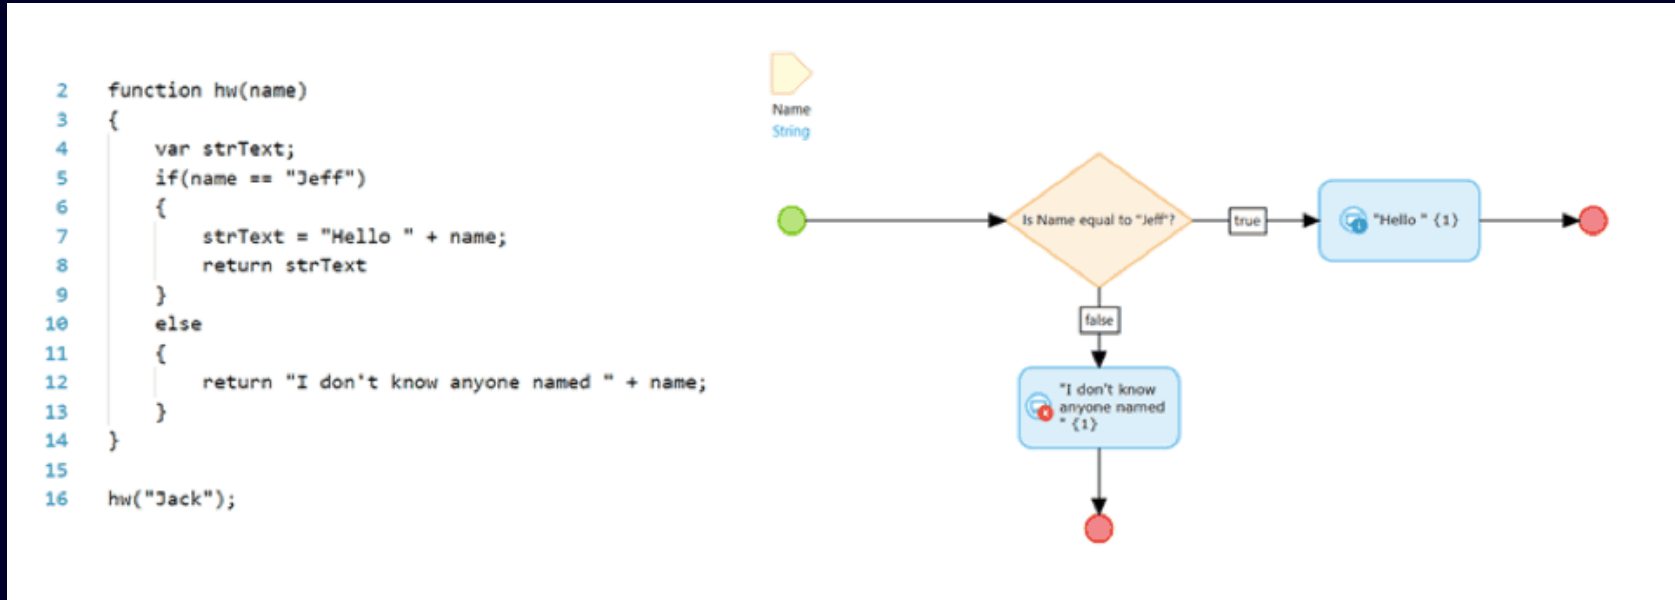

Wenn Sie es
verpasst haben

Was ist eigentlich Low Code?

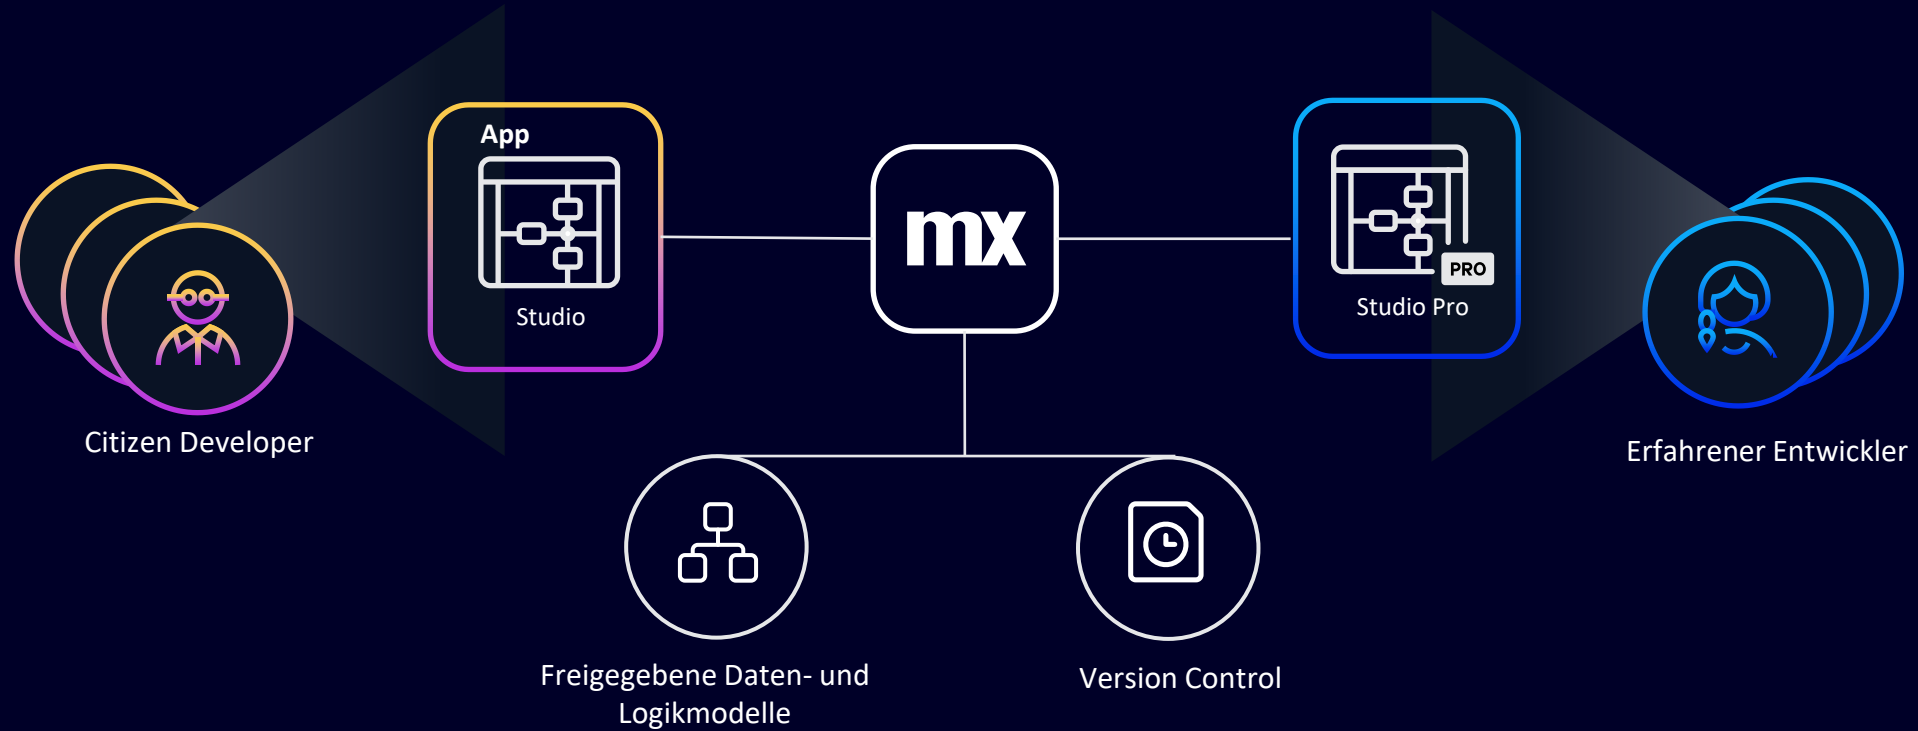

Wie im vorherigen Webinar gesehen:

Low-Code abstrahiert herkömmlichen Code in eine für Menschen lesbare Logik und ein lesbares Design, wodurch die Softwareentwicklungskosten drastisch gesenkt und die Time-to-Value verkürzt werden.

Was ist eigentlich Low Code?

Wie im vorherigen Webinar gesehen:

Was kann mit Mendix alles gebaut werden?

Wie im vorherigen Webinar gesehen:

Kundenerlebnisse digitalisieren

-  SaaS applications
-  Onboarding
-  B2C mobile app
-  Self-service portals

"Von der Idee bis zum praktikablen Produkt, das Sie einem Kunden in zwei Wochen demonstrieren können, ist bisher unbekannt. Und das können wir."

BARRINGTON CLARKE / DEVOPS LEAD /
ZURICH INSURANCE

Geschäftsprozesse automatisieren

-  Complex budget approvals
-  Incident Management
-  Plant maintenance
-  Logistics/shipping management

"Die Dienste, die wir mit Mendix aufgebaut haben, haben bereits Millionen von Transaktionen pro Monat verarbeitet.."

PRAKASH INBASEKARAN / ENTERPRISE ARCHITECT/
DUBAI MUNICIPALITY

Kernsysteme modernisieren

-  Mobile SAP Supply Chain
-  Smart Warehousing
-  Work order management
-  Lotus notes refresh

"Unsere 20 Jahre alte E-Commerce-Lösung hatte sich zu einem beträchtlichen Monolithen entwickelt. Um eine bessere Anwendung zu entwickeln, brauchten wir eine bessere Technologie, also haben wir Mendix eingeführt, was für diese Art der Zersetzung fantastisch war."

MIROSLAV SAMOILENKO / DIRECTOR INTEGRATIONS
ARCHITECTURE / TRANE

“Die Reise von tausend Meilen beginnt mit einem einzelnen Schritt“*

The screenshot displays a PLM dashboard with a dark blue header containing navigation links for Dashboard, Tasks, Alerts, and Engineers. The main content area is divided into several sections:

- Dashboard:** A row of four cards: Tasks (server icon), Asset alerts (warning icon), Asset (bar chart icon), and Engineers (person icon).
- Assets requiring maintenance:** A list of assets with details for "MendixAir Boeing 747" (MX1583) and "MendixAir A330-300" (MX1587). The Boeing 747 entry includes a date (5/26/2016), location (AMS - Amsterdam, Netherlands Schiphol), and an "Assign" button.
- Recent Live Alerts:** A list of alerts with details for "Engine temperature too high", "Rotation speed inconsistent during flight", and "Please check left wing tip". Each alert includes a description, date, and a "Details" button.

A "Feedback" button is visible on the right side of the dashboard.

Welcome

Where today meets tomorrow.
