

JT2Go Desktop System Requirements

JT2Go Windows Desktop Minimum System Requirements

- Windows 10 Pro and Enterprise
- 2 GHz or better 64-bit
- 4 GB System RAM
- 2 GB of virtual memory
- Graphics card with 256 MB of dedicated video RAM and support for OpenGL 3.2 or greater

Performance

Performance is directly related to system processor speed, RAM, and your video card. Although JT2Go will run if your system meets the minimum requirements described in this section, your performance will be directly related to your configuration.
