Date: 18 June 2019
Create a new Incident Report (IR)

1. Dial your local GTAC Customer Support Phone number and wait to be connected.

2. Press 1 to create a new Incident Report (IR).

3. Enter your SoldTo/Server ID up to 10 digits, with or without leading zeros and press when complete.

   00001234567 #
   1234567 #

4. Product selection:

   Select your product according to the attached list.
   (A detailed list of support options is shown on page 4)

   E.g. NX support 1

   Resulting key sequence after successful telephone connection:

   New IR | SoldTo terminate by hash | Product selection

   1 | 1234567 # | 1

Note:
This sequence can be typed in continuously once the connection is established.
Follow-up on an existing Incident Report (IR) – excluding Japan

1. Dial your local GTAC Customer Support phone number and wait to be connected.

2. Press 2 to follow-up on an existing Incident Report.

3. Enter your IR-Number up to 7 digits, e.g. 1 2 3 4 5 6 7

**Resulting key sequence** after successful telephone connection:

<table>
<thead>
<tr>
<th>Follow-up Selected</th>
<th>IR-Number</th>
</tr>
</thead>
<tbody>
<tr>
<td>Follow-up on an Existing IR</td>
<td>2 1 2 3 4 5 6 7</td>
</tr>
</tbody>
</table>

➔ You will be immediately forwarded to the responsible Customer Support Specialist, if available.

**Note:**
This sequence can be typed in continuously once the connection is established.

Related information

**Phone system**
This system will guide you to the support agent most suited to solve your problem. The incident reporting procedure will be smoother if you have your SoldTo ID available when calling.

**Your SoldTo/Server ID**
Your SoldTo ID or Server ID is your identification when calling GTAC. This number proves that you have a valid maintenance contract. You can always find the SoldTo ID number in the header of your license file.

Most of our products will display the SoldTo ID under the help menu: “Help -> about xxx “or “Help about xxx -> system information”.

**Electronic Support Tools**
In addition to telephone support via the hotline, we provide a number of electronic support tools at [http://www.siemens.com/gtac](http://www.siemens.com/gtac).

The electronic support tools include incident reporting, status updates and incident tracking via a web form, a download and upload server for data, frequently asked questions and many other useful sources of information.

To access these tools, you need a WebKey account. You can register for an account at [https://plmapps.industrysoftware.automation.siemens.com/webkey/](https://plmapps.industrysoftware.automation.siemens.com/webkey/).

When you register, you will be asked to provide your SoldTo ID and your WebKey access code, which are both available in your license file.
