

# Learning Advantage Academic Gold Membership

## Maximize your marketability with Siemens PLM Software e-learning

### Benefits

- Free to any institution that has active (in maintenance) academic licenses of NX, Teamcenter, Tecnomatix or LMS
- Provides 24/7 on-demand access to learning content and assessment tools
- Helps you improve your Siemens PLM Software solutions skills
- Helps you improve your marketability with Siemens PLM Software industry partners
- Provides complete access to training updates and new content
- Allows you to track course completion dates and assessment scores

### Features

- Extensive self-paced library supporting a broad range of Siemens PLM Software products and versions
- Online learning management system for tracking and reporting training progress
- Hands-on activities for application of new skills in interactive sessions
- Self-assessment tools that facilitate individualized review learning cycles

### Summary

The Learning Advantage Academic Gold Membership is a convenient, easy-to-use e-learning portal that provides faculty, students and displaced workers with time-efficient methods to gain skills and knowledge of Siemens PLM Software solutions. This system provides access to an unparalleled library of self-paced courses and assessments, as well as management tools you can use to measure your learning progress.

### Academic value

The Learning Advantage Academic Gold Membership is a scalable training solution you can use to extend your Siemens PLM Software knowledge. Self-paced courses provide 24/7 access to on-demand learning. Assessment tools can be used to measure and validate application knowledge and skills. Students enrolled at academic institutions who are using

Siemens PLM Software academic bundles are eligible to receive free access to Learning Advantage, which aids their learning.

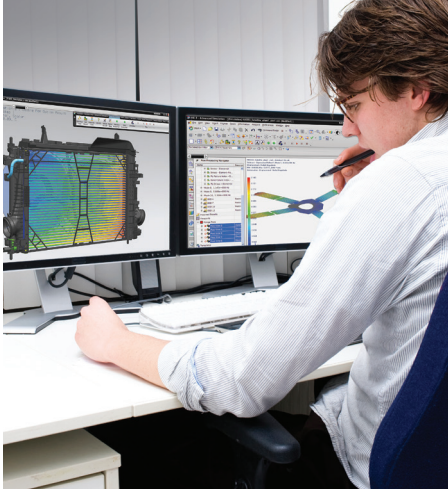

### Technical overview

- Internet-based solution launched from a standard browser (no local software installation required)
- Learning management system to track and record student progress through each course and assessment
- Simple user interface allows single-click course launch (no cumbersome course acquisition process required)
- Text search makes it easy for you to locate information within a course
- Technical documentation for standard Siemens PLM Software products available online from your account
- Part downloads to support interactive activities
- Powerful self-assessment tools are individualized to meet your needs

### Competitive advantage/job readiness

Learning Advantage courses present consistent methods and concepts approved by Siemens PLM Software. Course development teams work closely with software product developers to ensure that prescribed processes reflect the intended product usage and industry best practices. No other training provider can make this claim. The Learning Advantage library contains multiple product releases, so you can preview the next release or review recent enhancements at your convenience. And because our learning

# Learning Advantage Academic Gold Membership

products are coordinated with Siemens PLM Software product releases, you can be confident that training will be delivered in time for any upgrade.

## Using Learning Advantage

Learning Advantage is easy to use, requiring only a standard internet browser. Membership provides you with direct access to courses in the library, which are automatically updated as new courses and versions become available. The library is logically organized with simple navigation tools, enabling you to browse topics of interest. Assessments

enable you to test your knowledge, review answers and take links back into courses for further study. The learning management system enables tracking and reporting to measure learning progress.

Learning Advantage memberships are aligned with Siemens PLM Software product lines and offer a complete library of learning solutions. The Learning Advantage Academic Gold Membership provides unlimited annual access to all standard self-paced courses in the Learning Advantage library.
