SIEMENS

JT2Go Desktop
System Requirements

JT2Go Windows Desktop Minimum System Requirements

- Windows 10 Desktop only
- 2 GHz or better 64-bit or 32-bit processor
- 4 GB System RAM
- 2 GB of virtual memory
- Supported graphics adapters

Manufacturer	Models
NVIDIA	Quadro, QuadroFX, Grid
AMD	FireGL, FirePro
Intel	HD 4600 or newer

Supported Graphics Cards can be found at [Hardware and Software Certifications](#)

- Choose [Graphics Card Certifications](#) to download an Excel spreadsheet of graphics card data
  Note: the spreadsheet is titled NX-Graphics-Certification-Table but does apply to JT2Go.

Performance

Performance is directly related to system processor speed, RAM, and your video card. Although JT2Go will run if your system meets the minimum requirements described in this section, your performance will be directly related to your configuration.
